

16th Symposium of the Research Training Group “Bioactive Peptides”

Stephen B.H. Kent and the Legacy of Emil Fischer

October 10, 2022 | 2.30 - 6.30 p.m.

Emil-Fischer Lecture Hall, Hessische Straße 2, 10115 Berlin

Program

2.30 p.m.

Prof. Dr. Roderich Süßmuth, Prof. Dr. Christian Hackenberger

Welcome

Prof. Dr. Christian Becker (University of Vienna)

Protein Semisynthesis - Providing tailor-made proteins for biology and biotechnology

Prof. Dr. Ashraf Brik (Technion, Haifa)

Recent advances in the chemical synthesis of uniquely modified peptides and proteins

4.00 p.m.

RTG doctoral students' talks - Christian Stieger & Sebastian Trunschke

4.30 p.m.

Break

5.00 p.m.

Dr. Eva Wille (Weinheim)

Lives in Chemistry, a modern “oral history” project

Prof. Dr. Martin Engelhard (MPI Dortmund)

Steve Kent, a pioneer in protein synthesis

5.30 p.m.

Prof. Dr. Stephen Kent (University of Chicago)

Solving the Chemical Enigma of Life – in the footsteps of Emil Fischer

6.00 p.m.

Prof. Dr. Roderich Süßmuth

Discussions and Outlook
