

Table of contents

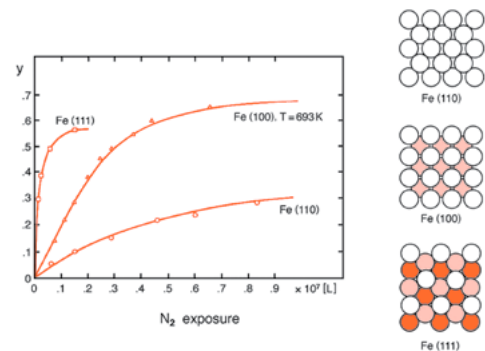

Preface 11

1

Youth and education 13

- 1.1 The beginnings 15
- 1.2 University studies 18
- 1.3 Diploma thesis 20
- 1.4 Doctorate 23

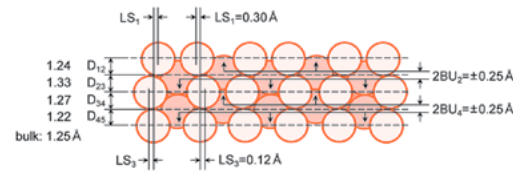

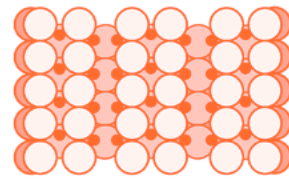

2

University teacher 29

- 2.1 Habilitation 31
- 2.2 Professor in Hanover 33
- 2.3 Professor in Munich 37
 - 2.3.1 The mechanism of ammonia synthesis 44

H / Ni(110)

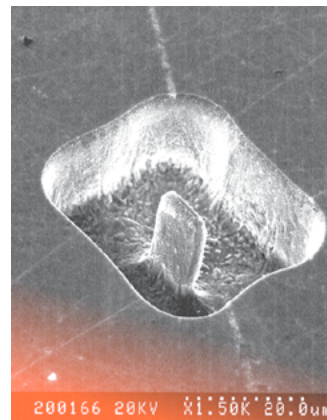

$\theta = 1.5$

3

Director at the Fritz Haber Institute 49

- 3.1 Preface 51
- 3.2 Real catalysis 52
- 3.3 Dynamics of surface processes 53
- 3.4 Electronic excitations in surface reactions 55
- 3.5 Surface processes on the atomic scale 56
- 3.6 Electrochemical micromachining 64
- 3.7 Oscillating reactions and nonlinear dynamics 66

4

(Un-)retirement 75

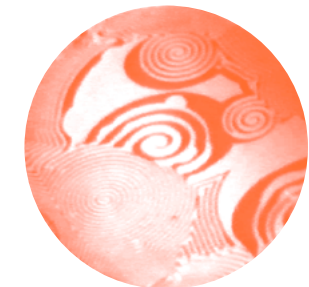

- 4.1 Emeritus status 77
- 4.2 Teaching and organization of science 78
- 4.3 Awards 82
- 4.4 The role of music 92

5

About the limits of the knowledge of nature 95

- 5.1 Where do we stand? 97
- 5.2 Chemistry – a completed science? 99
 - 5.2.1 The stable equilibria 99
 - 5.2.2 The binding forces 100
 - 5.2.3 The rates 101
 - 5.2.4 The unstable equilibria 102

Appendix 103

- Epilogue 105
- Vita 108
- Chemistree 110
- Holographs 113
- Publications 161
- Links 191
- Image sources 193
- Index 194
