With my maternal grandfather, Sarvepalli Radhakrishnan, 1966, when he was President of India.

Typical hetero-synthons in drug Cocrystals.

Past presidents, IUCr officers and Executive Committee members 2005–2008 in the 2008 Osaka congress. Past presidents visible from left in the front row, Philip Coppens, Ted Baker, Henk Schenk, Bill Duax. Back row from right, Claude Lecomte, Chris Gilmore, Gautam Desiraju, Peter Coleman, Davide Viterbo.

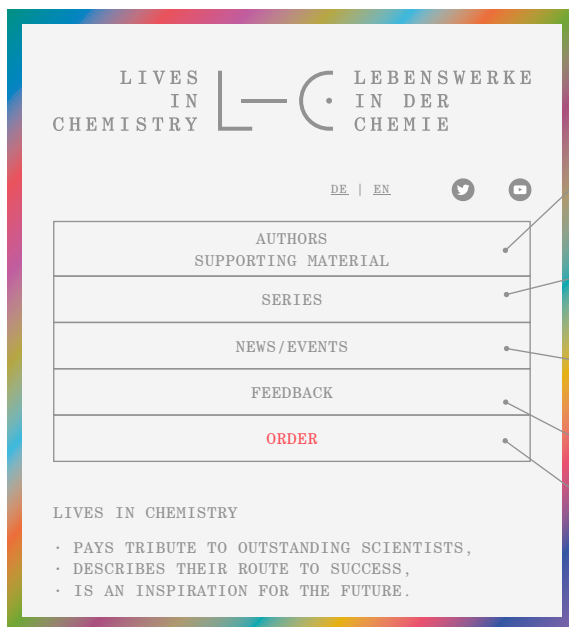

# Lives in Chemistry: Uncovering Chemical Creativity!

Authors ponder about their successes.

They provide inspiring stories and documents.

These autobiographies are unique and exquisite gifts for chemists and crystallographers of all generations and disciplines, as well as science historians.
